

Spring - 2011

Greetings from Honduras!. We have 15 new students at the moment, four of them are girls and eleven are boys, between 6-12 years old. It's amazing to see how fast they are adapting to the Eh family. They look very happy and healthy. Thanks be to God!

We have already started the new school year. During the afternoon our children are attending several workshops like hair dressing and cutting, arts, silk screening, and others. This is the way we are creating skills for a better opportunity in their lives.

We have made changes in their daily schedule. Now they have time to practice sports during the afternoon and weekends. We have two soccer teams for both the smaller and bigger children. Every Saturday they go to practice at the soccer field outside of EH, with another school. They have had two formal games and they won twice. They are really excited about it! They are very good soccer players.

Next Friday we will have the celebration of "Fathers Day" with their parents. Every one is happy with it. They are preparing different performances. In the past we didn't have this kind of celebration because some of them don't have either a mother or father and I didn't want to hurt their feelings. But, now it's different they feel that we are a real family and they feel comfortable with it. Now, for this celebration they will vote on who is the father or mother of the year and we will have fun.

Thanks a lot for all your support to create a better society through our children.

Sincerely,

Claudia Castro
