

It's a great honor to send you our sincere gratitude for your generous support to our children of el Hogar.

They had a special school year. All of them did a great job getting good grades in their classes, also this is special time for everyone because we are preparing for graduation on November 12th.

As a result during this year el hogar children have accomplished a lot of activities and goals. We found that all of the achievements could not have happened without your support. Your kindness brought to our children a wonderful family, happiness, knowledge and life development.

Finally, we wish you a Merry Christmas and blessings in 2012

Jose A. Godoy

God bless you!
